Pupil use of personal mobile devices in school.

Dear Parents/Carers,

At Walworth we encourage all of our children to use mobile devices safely and responsibly. On our website there are several links to online safety resources and our Online safety policy can be found in the policies section of the website.

Whilst we recognise that mobile devices are an important part of modern life it is our policy that personal devices are not to be used in school. The online safety policy states that Walworth School expects learners’ personal devices and mobile phones to be kept in a secure place and will not be used during lesson times. As technology advances more and more devices have connectivity and “Mobile devices” include mobile phones, tablets, smart watches and ear phones.

Recently, more of our pupils are coming into school with smart watches and we would ask that parents/carers check that these devices do not have connectivity. If they do, we request that these are left at home or handed in for safekeeping as is the case with mobile phones.

Thanking you in anticipation,

Mr S Hope
Deputy Head Teacher
