

## Understanding your child with Autism spectrum disorder

*for parents post diagnosis*  
*Join us on Zoom!*

making a

difference

together

**Part 1 Wednesday 1st December 9.30-11.30 am.**

**Part 2 Wednesday 8<sup>th</sup> December 9.30-11.30 am.**

*Join me on Zoom! Hosted by Rebecca Borrill, CAMHS  
clinician for Walworth school.*

Many of our children at Walworth have a neuro-developmental condition that may affect their family life, learning and behaviour. Maybe your child already has a diagnosis or may have been recently diagnosed; your child may be waiting to be seen and you are wondering what support is available and who to ask for advice and support. I hope to answer some questions or find some answers! Whilst CAMHS is not commissioned to work with your child post diagnosis, Walworth is in the position to offer advice and support whilst your child is here. The aim of the training is to understand what ASD is, what you can do as a parent and what support is 'out there', Mark Porter, CAMHS manager will be available to answer questions at the end. All children with ASD and Neurological conditions are varied and unique, and there may be more questions than answers sometimes, we are looking at this training meeting as a regular event should parents wish. SEE BELOW

**To join us:** Please ring Walworth school on 01325 300194 to let us know you are interested. We will contact you with the pass code to join the meeting.

Some parents, whose children have already received a diagnosis, will be directly contacted by us by email.

**To access the Zoom App:**

- Download the App from App store on your phone [*Zoom App for iPhone*], tablet, or computer
- We will contact you with the meeting ID and pass code once you have let us know you are coming and prior to the date.
- Once downloaded, follow the instructions, you will notice that you can simply join *any* meeting if you have the pass code.
- If you are finding any of the above difficult to set up, please contact us

We look forward to seeing you online!

*Rebecca Borrill*
